

## IT Administration and IT Security Engineer (f/m/x)

### We want you!

Clinerion is a Swiss-based technology and real-world data services company with international presence in Switzerland and Turkey. Clinerion provides disruptive software solutions supporting life sciences companies and hospitals in the process of developing new medicines.

One of our key solutions is the Patient Network Explorer (PNEx), which automatically finds eligible patients for clinical studies in Big Data settings, such as hospitals and other healthcare organizations. In drug development, this addresses a major problem of finding significantly more eligible patients faster and at lower costs. PNEx works through integration with electronic health records at hospitals and represents a federated network of servers, allowing central querying and local patient identification. PNEx also generates data for Real-World Evidence. Clinerion is part of Informa Pharma Intelligence.

To strengthen our existing IT Team in Istanbul, Turkey, we are currently looking for a passionate/enthusiastic **IT Administration & IT Security Engineer**.

### Your Role

As a member of IT Administration Team, you will work on all IT related tasks and services. As part of that role, you will also deliver IT support to Clinerion Employees and help Software Development and Test team in installation and configuration of the internal resources.
